## **PRODUCT DESCRIPTION**

Arabescato Corchia is a dramatically beautiful Italian marble, defined by a striking brecciated pattern. Its appearance is created when angular "clasts" of warm ivory are cemented into a unique grey-brown background. This distinctive, artistic veining creates a natural, one-of-a-kind statement for any project. This marble is highly versatile, ideal for interior floors, walls, shower surrounds, and countertops, including steam rooms. Its classic Italian heritage and heavy brecciation make it a sophisticated choice for luxury residential or commercial spaces.
