LeGarage is a rectified glazed color body porcelain produced in Italy. Its design is a modern contemporary interpretation of cement. It has an industrial and metropolitan feel, that creates sophisticated surfaces where the introduction of light reveals delicate iridescent effects. Le Garage is available in several formats, along with a decorative 12x24, called "Spark" in all four colors. The series also has an R11 rating in 24x48 format, suitable for use outdoors. Design faces for each format are: 12x24 (60), 24x24 (30), 24x48 (15) and 40x40 (8) Both finishes exceed ADA recommendations for slip resistance with DCOF of 0.73 and R11 with DCOF of 0.84
