PRODUCT DESCRIPTION

Salines captures the quiet elegance of honed concrete with a soft, mineral texture. This versatile porcelain collection offers two distinct finishes: a smooth, refined surface and a linear wave pattern that adds subtle, tactile movement. Available in a trio of essential neutrals—Natural, Bone, and Silver—Salines brings understated sophistication to both residential and commercial interiors. With a rectified 13" x 40" format, it creates clean, seamless installations ideal for walls and floors where simplicity meets refinement.
