

Azul Mónica

5 finishs · 2 formats

Azul Mónica

Azul Mónica is a blue-grey Portuguese limestone with a fine, even grain. It is one of the strongest stones in the range and holds up to repeated freeze and thaw, which makes it a reliable choice for exterior paving, facades, coping and public spaces as well as interiors. Five finishes are available: honed, flamed, flamed and brushed, bastide and sandblasted.

FORMATS	Slabs, Cut to Size
